Progress Report #3

In the last sprint I was in the end of the research and beginning of the planning stage for the project. I began design work such as creating comps of a website layout and logo. I Over the last few weeks I feel that I have learned enough JavaScript to be able to code the interactive worksheets for my project.

What has already been completed as of 11/15

- Completed my project validation along with a competitive analysis.
- Created and refined a logo idea for the website.
- Picked out a color pallet and fonts for the website.
- Created a lo-fi wireframe of the project website.

Future Plans

During this sprint I will be digitizing the logo in Illustrator for use on the website. I will be coding the navigation and pages of the website using HTML/CSS. I will code as much content that I can this week. During this phase I will also be building the interactive worksheets with PHP, HTML, and JavaScript. I will also be creating a map service for my project website

Concerns/Reflections

I am concerned about meeting the deadline for development of the first prototype. I am hoping that I have planned well enough to avoid any errors that will cause future road blocks. I am experiencing a few roadblocks right now. I am still waiting to hear back from UC Berkeley about potentially using the guided meditation audio for my project. At this point I will begin building the website without the audio and hope that I can implement it later.

After reflecting on this last sprint I realize that the deadline for this project and the end of the quarter is creeping up on me. I think that it would be best for me to begin the coding of this project because I feel that coding is an area that I can easily become caught up in due to inexperience.

Sprint ending 11/15/2015

ID	Pri	Task	Type	Est.	Actual.	Complete
1b	6	Refine Logo comps.	Design	120	60	YES
2a*	3	Wireframe web layout	Design	90	120	YES
4a*	2	Secure Media for Use on Website	Research	120	160	NO
7a	1	Project Validation 1-3 pages	Research	60	60	YES
5a*	4	Create Navigation	design/code	180	0	NO
6b	5	Digitize Mindfulness Worksheets	design/code	180	0	NO

Sprint beginning 11/15/2015

ID	Pri	Task	Type	Est.	Actual.	Complete
1c	2	Digitize Logo	Design	120		
2c	1	Code web layout	Design	180+++		
4a	6	Secure Media for Use on Website	Research	60		
3c	5	Create Map Application	design/code	180		
4c	4	Create animation for website	design/code	180		
6b	3	Digitize Mindfulness Worksheets	design/code	180		

* Items added from the last sprint
